

THE MAN OF GALILEE PROJECT

a ministry of Heart to Heart Foundation

Dear Christian Friend,

I have a favor to ask, and I need your advice.

But first, I want to send you a pre-publication copy of the Millennium Edition of The Man of Galilee.

Over the years, this little book has brought atheists to Christ—and has strengthened the faith of many others, including my own!

The Man of Galilee was first published by my great-grand father, Bishop Atticus Haygood, more than a century ago.

I believe it is needed now, more than ever. I'm anxious to know if you agree.

Originally published in English, Spanish and Japanese, Haygood does a piercing devastation of the writings that attack the doctrines of Jesus.

It is as timely for the beginning of the Twentieth-first Century, as it was when The Man of Galilee was first published in 1889.

We have a few pre-publication copies of the Millennium Edition available, and have reserved one for you.

Just return the attached Reservation Certificate, and I'll send your copy out by return mail. I need your advice.

I believe this little book is must reading for the agnostic – and can strengthen the faith of the believer.
